Press Release

Ascent Medical, a subsidiary of Salalah Medical Device Manufacturing Company, SAOC (SMDM), today announced that it has received CE Marking approval from SGS for its access and interventional guidewires.

According to President and CEO, Ciaran Hood, "This is a significant occasion for Ascent Medical as we seek to expand our support for medical device manufacturing customers in Europe by offering the option of private label, sterile packed guidewires. This achievement demonstrates our commitment to quality and customer service and provides our customers with the support needed to shorten their regulatory cycle time thus reducing time to market."

Ascent Medical Corporation is a manufacturer and supplier of guidewires used for access and interventional procedures. Guidewires are small diameter spring coils that facilitate the guided placement of catheters and other medical devices used in the diagnosis and treatment of numerous medical conditions. Ascent Medical offers a range of guidewire sizes from 0.018" diameter up to 0.060" diameter in both un-coated and PTFE pre-coated configurations.
